

Auto-Tie Series

Horizontal Balers

International Baler Corporation has one of the most diverse lines of Auto-Tie Balers in the industry. IBC offers our customers many configuration and options to choose from. We do this to meet the constantly changing and growing needs of our customers.

IBC's Auto-Tie Series offer both high speed and reduced operating cost. They eliminate the additional time and cost of having to manually tie-off and remove finished bales from the baler.

IBC has been manufacturing balers for over 60 years. We know what our our customers need and we strive very hard to meet those needs.

AT-4343-8-40
with optional conveyor and
remote power unit

INTERNATIONAL BALER CORPORATION
